

Ex Sounder dEV 20

High-volume sounder with 32 different warn signals for applications in zones 1, 2, 21 and 22

Overview

Potentially explosive areas often require the use of acoustical signals for warning, indicating or signalling purposes. The dEV20 Sounder is designed for exactly those occasions.

The dEV20 is activated by turning on the supply voltage. It is designed for continuous operation and available with different operating voltages.

The dEV20 Sounder consists of a pressure-resistant housing made of seawater-resistant aluminium conforming with ingress protection IP 66. Its sound conductor is made of impact-resistant plastics. The sounder is suitable for indoor and outdoor applications in zones 1, 2, 21 and 22. The terminal compartment is realized according to protection type "increased safety".

The two signalling stages can be set using a DIP switch. A selection of 32 signal tones is available for both stages.

Default settings for signal tones:

S0 = tone 24, S1 = tone 4

A signalling combination can be established using the provided stainless steel mounting plate with integrated junction box.

Features

- Volume: up to approx. 115 dB(A)
- 32 tone variants, 2-stage alarm
- Adjustable volume (3 steps à 10 dB)
- Aluminium housing, Polyamid cap
- Protection type: II 2 G Ex d e IIB + H2 T6 Gb
II 2 D Ex tb IIIC T85°C Db
- Ingress protection IP 66
- Terminal compartment "increased safety"

Certification

Protection type	II 2 G Ex d e IIB + H2 T6 Gb II 2 D Ex tb IIIC T85°C Db
EC type examination certificate	PTB 12 ATEX 1014

Specifications

Housing	Copper-free, seawater-resistant aluminium
Cap	Polyamid (black)
Volume	Max. approx. 115 dB(A), can be lowered in 3 steps of 10 dB
Signal tones	32 per signalling stage
Alarm tone selection	Via DIP switch
Current consumption	93-460 mA (depending on voltage)
Power consumption	Max. 14 W
Ingress protection	IP 66 according to IEC 60529
Protection class	I
Cable glands	M20 x 1.5 (cable 5.5 to 13 mm)
Connection terminals	Terminal capacity: 2.5 mm ² single-wire 1.5 mm ² fine-wire
Operating conditions	Indoors and outdoors
Operating position	Vertical, cable gland facing downwards
Operating mode	Continuous operation
Temperature range	-50 °C to +60 °C
Dimensions	~ Ø 144 x 345 mm
Weight	2.8 kg

Switching if signalling stages

DC sounder

AC sounder

Connection terminals in terminal compartment
external wiring
1st signalling stage: switch S open
2nd signalling stage: switch S closed

Measuring method

Ordering data

Type	Designation	Input voltage	Current consumption	Art. No.
