SecuriLED

SecuriLED Series are R65 approved surface and bracket mount quad flash directional LED heads with intensely bright LEDs. Multiple units may be connected together to provide synchronous or alternate flash patterns, the bracket mount version adjusts horizontally and vertically. The SecuriLEDs are suitable for many vehicle applications including fleet, cars, delivery, refuse trucks, large vehicles, road maintenance, recovery, utilities and road safety.

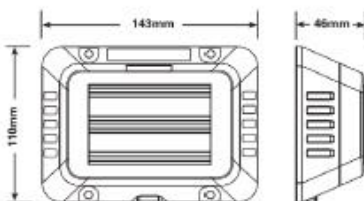

Models

PART NO.	LED COLOUR	MOUNT
497032	Amber	Surface
