

Pneumatic horn PH1

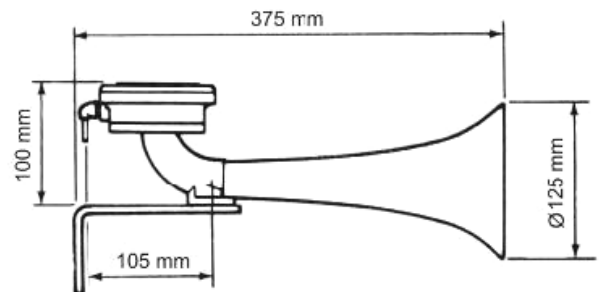

General information

High intensity signalling horn for long distances, for industrial and marine applications. For indoor or outdoor use.

Works with pressurized air or gas and magnetic valve.

Technical information

Horn	Plastic, black
Operation	with pressurized air (2-12bar) or gas (e.g. carbon dioxide)
Air volume	about 5 l/s
Valve	magnetic valve
Mounting	with bracket
Installation	Horizontal or downwards
Temperature	-20°C up to +40°C
Weight	approx. 0,34 kg

Order data

No. of article	Nominal tension	Output	Frequency	
PH1.024.2	24VDC	approx. 135dB(A), 1m	400Hz	incl. valve
PH1.230.1	230VAC	approx. 135dB(A), 1m	400Hz	incl. valve
PH1.000.0				without valve
