

## EW2000 SERIES

### Blue LED Spotlight

ECCO's EW2000 Series LED Pedestrian Spotlights' are designed specifically for material handling applications to provide a visual warning for pedestrians in the vicinity of mobile equipment. These lights are intended as a supplemental safety device in addition to a 360° warning light and project a blue, 300 lumen spot beam onto the ground either in front or to the rear of the vehicle. This additional safety feature is especially useful where blind corners are present (i.e. warehouse racking) and is likely to be seen by pedestrians that are not looking up or paying close attention to their surroundings. Featuring 12-48 VDC operation, an aluminum housing and polycarbonate lens the EW2000 is extremely resistant to impact and vibration damage and has an IP67 ingress protection rating.

#### Models

PART NO.	ILLUM.	VOLTAGE	LUMENS
EW2000B	Blue	12-48	300

#### Features and Benefits

- Blue illumination
- Four 3-watt LEDs
- Pedestrian warning for material handling applications
- Polycarbonate lens
- Aluminum heatsink housing
- IP67
- Warranty: 3 years
